Fall Leaves + Motorcycles = More Accidents

Fall is just around the corner. So how do you stay safe on your rides with all those leaves on the trails or roads? And what do you do if you are in an accident?

Check out these top 5 tips for motorcycle safety this fall:

1. **Be prepared and check the weather** often so you'll know what to expect before and during your ride.
2. **Make sure your bike is in excellent condition** before you leave. Top off all your fluids. Check it from top to bottom, including the tires. Do your tires have plenty of tread?
3. **Watch out for critters!** Between hunting for food, breeding, and hunting season, fall is a busy time of the year for animals. Keep an eye out for deer and other wildlife on the road.
4. **Dress for Safety:** Make sure you wear the right protective clothing while riding. Layer up for colder days and don't forget your rain gear – just in case!
5. **Beware of leaves** on the roads or trails. Leaves can cover up holes or other things on the road you would typically avoid. Plus, they can be super slippery! Also, wet leaves can stick to your visor and mess with your vision as you ride.

And as always, if you, unfortunately, get into an accident caused by a negligent driver, make sure you hire a lawyer to protect your rights and help you get the justice you deserve!

Who's Ready For Some Football?

The new football stadium at Villa Rica High School is completed, woohoo!

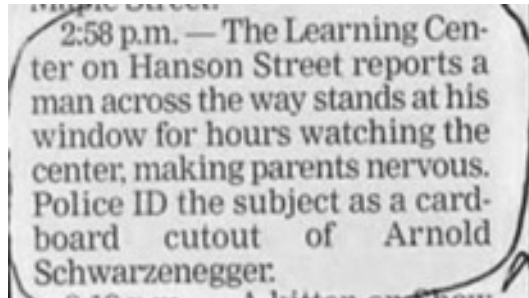

The new field named Sam McIntyre Stadium is now open for use, including a new artificial field, a synthetic track, new bleachers, improved lighting, a concession stand, restroom facilities, and lots of space for parking.

Villa Rica Wildcats High School Football and Track teams will now have plenty of room to practice and compete on the new artificial turf field. Plus, the track was expanded to eight lanes from six, with the best in new synthetic surfacing to help the student-athletes perform even better.

Come out and root for our Wildcats!! #WeAreVR

Need A Laugh?

Funny and Weird Police Stories

Parents dropping their children off at Hanson Street's Learning Center reportedly saw a creepy-looking figure in the window across the street.

They noticed that the figure would stare out the window at the children for hours, and the parents became concerned enough to call the police.

When police arrived, it turned out the silhouette belonged to a cardboard cut-out of Arnold Schwarzenegger! 🤪
