A Recipe From Julie

Julie's Homemade Cheesecake

"One of the things I love to do in my spare time is bake because I love to brighten someone's day with a special treat.

When the courthouse is open, I regularly make treats and take them to court for the opposing counsel, judge's office, jail staff, and bailiffs (and anyone who is an officer of the court). Everyone's favorite is always my cheesecake!

My homemade cheesecake recipe is always a hit, so make one and share

a piece with your neighbors or friends to brighten someone's day!

If you have any favorite recipes, news, or anything else that you would like to share with our community, send it my way and you may be featured in our next newsletter!"

– Attorney Julie C. Moore

Crust:

- 2 sleeves of Honey Graham Crackers
- 2/3 cup of butter melted (but not hot)
- 2/4 cup of granulated sugar
- 1 teaspoon of salt

Filling:

- 4– 8oz packages of cream cheese ROOM TEMPERATURE (I prefer Philadelphia full fat)
- 1 cup of granulated sugar
- 1/2 cup of sour cream ROOM TEMPERATURE (again full fat is recommended)
- 3 eggs ROOM TEMPERATURE

Do you see a pattern? Temperature is very important!

Crust Directions:

1. Crush graham crackers (I crush them in the package for less mess)
2. Place in a large bowl and add salt and sugar and toss. (I use clean hands to mix and crush up any large pieces of the graham crackers)
3. Pour melted butter over the mixture and mix with hands until sticky.
4. Use a springform pan and pour crust inside using your hands to level and spread along the bottom half of the side parts of the pan.
5. Place pan on a cookie sheet at 350 degrees for 10 minutes and remove.

Filling Directions:

1. Mix with mixer until well blended and pour into your pre-baked crust.
2. Use aluminum foil to wrap outside of a springform pan crimping the foil onto itself at least covering the bottom and up to half the depth of the pan.
3. Place cheesecake on a cookie sheet and pour water around the bottom of the pan.

4. Place in oven at 350 degrees for 65 minutes. The center will jiggle when done – the outer crust will not.
5. Remove and allow to cool at room temperature for 1 to 1 1/2 hours. Place in the fridge for at least 6 hours or overnight.
6. Undo spring on springform pan. (If needed use butter knife to release stubborn crust areas)
7. Enjoy plain, or add a favorite fruit topping or fresh berries. Best cheesecake ever!!!

A Florida man has been arrested for repeatedly making false 911 calls complaining that his wife had "thrown out his beer."

Officers called out to his home in West Palm Beach told an apparently intoxicated Carlos Bueno Mir that the situation really was not an emergency and not call 911 again.

But after they left he phoned again, yelling at an operator that a woman had broken into two of his beers, reports wpbf.com.

A Florida man has been arrested for repeatedly calling 911 to complain that his wife had "thrown out his beer."

Officers came out to his home in West Palm Beach and informed the intoxicated man that his situation was NOT an emergency, and to stop calling 911 about his beer.

Unfortunately, the man couldn't help himself. He waited for the officers to leave before phoning 911 again and yelling at an operator that a "strange woman broke into two of my beers!"

The man called the police a total of 7 times in just four hours. He faces charges of misuse of the 911 emergency system for making a false alarm or complaint or reporting false information.

Oh, Florida Man...
